

# Product selection aKua™

Product	Type	Application
aKua 30	Antiscalant-corrosion inhibitor	Small & medium plants (<50m <sup>3</sup> /h feed water). LSI -0,5 to +2,8
aKua 30a	Antiscalant-corrosion inhibitor	Small & medium plants (<50m <sup>3</sup> /h feed water). LSI -0,5 to +2,8
aKua 31	Antiscalant-corrosion inhibitor	Large plants (>50m <sup>3</sup> /h feed water). LSI -2,0 to +2,0
aKua 31d	Antiscalant-corrosion inhibitor	Small & medium plants (<50m <sup>3</sup> /h feed water). LSI -2,0 to +2,0
aKua 32	Biodispersant	Wide range
aKua 33	Antiscalant-corrosion inhibitor	Large plants (>50m <sup>3</sup> /h Feed water). LSI -0,5 to +2,5. cooper protection.
aKua 33d	Antiscalant-corrosion inhibitor	Small & medium plants (<50m <sup>3</sup> /h). LSI -0,5 to +2,5. cooper protection.
aKua 37	Antiscalant-corrosion inhibitor	Large plants (>50m <sup>3</sup> /h Feed water). LSI -0,5 to +2,8.
aKua 60	Antiscalant-corrosion inhibitor	Potable & food industry (direct contact). LSI -0,5 to +1,2
aKua 193	Biocide – Bronopol	Effective against Legionella. No for colling tower with high suspended solids
aKua 194	Biocide – Isotiazoline	Good for control of aerobic and anaerobic bacteria. Hardness <50 °F
aKua 195	Biocide – PolyQuat	Algeacide, and Wide range aerobic control
aKua 196	Biocide – DBNPA	Fast action. Recommended with pH <8,0
aKua 197	Biocide – THPS	Effective against Legionella. Non effective with others aerobic bacteria
aKua 198	Biocide – stabilised Bromine	Oxidant (full range pH)
